\*Duchess of Oldenburg—Good size, yellow, streaked red, juicy, rich, subacid, productive. Valuable for market. on earth.

Lubsk Queen-The most beautiful apple

## **AUTUMN APPLES**

Autumn Strawberry-Tender, juicy, productive.

Alexander-A large, beautiful red apple.

Fall Orange—Fruit large to very large, deep yellow and covered with small black dots; excellent quality. Tree a free grower and very productive.

\*Patten's Greening—Large, round, slightly flattened, yellowish green with bronze blush, sub-acid. Very hardy.

St. Lawrence, or Fall Stripe—Large, streaked red and greenish yellow; fine quality. Tree hardy.

\*Wolf River—Large, handsome; yellow shaded and striped red, juicy, pleasant, spicy flavor, very hardy. Our biggest apple.

\*McMahon—Large, round, almost white with faint blush; tree vigorous grower and hardy as a crab; bears young and abundantly.

\*Dudley, or North Star—Originated in Maine. Tree thrifty, perfectly hardy; a good cropper. Fruit, size and appearance of Duchess, but more solid and richer flavor; a few weeks later than Duchess.

\*Wealthy-Originated in Minnesota. Hardy. Vigorous and very productive

Beautiful Arcade—A great big yellow, splashed with red, sweet apple. A fine baker. Tree as hardy as the Duchess.

Lowell, or Greasy Pippin-Large, Golden yellow with waxy skin; delicious quality. The finest eating apple.

Okabena—Similar to Duchess, but later and preferred by many to that variety.

## WINTER APPLES

Salome

Ben Davis—Large, handsome, striped, valuable.

**Delicious**—Good size, fine quality. Tree good grower and hardy.

Grimes' Golden—Good size, yellow, of highest quality, very productive.

Golden Russet-Medium, dull russet, erisp, juicy.

Milwaukee—Large, red and yellow stripes. A very popular market sort.

American Blush—Large reddish russet, quality the best. Tree enormous and early bearer. Valuable for the market.

Stayman's Winesap—A very popular winter apple. Largely planted.

Winter Banana—A beautiful golden yellow, crimson cheeked apple with a decided banana flavor. Tree hardy.

Gano.—An improved Ben Davis, nearly covered with deep, dark red.

Fameuse-(Snow)-Medium, deep crimson, flesh white, of best quality.

\*Hibernal—Russian, large showy fruit, striped red.

Jonathan-Medium, red, extra quality,

Pewaukee-A hardy winter apple, good grower and keeper.

McIntosh-Medium size, dark red, good quality, juicy, sub-acid.

\*Northwestern Greening—Hardy, yellow, rich, of good size, extra long keeper.

Northern Spy—Large, striped, mild, sub-acid and tender, with a rich, delicious flavor. Salome—Long keeper, annual bearer, medium and uniform size; good quality.

\*Scott's Winter—Hardy and vigorous; bright red; crisp, spicy; and of a brisk acidity; long keeper.

Seek-No-Further—(Westfield)—Medium to large, round, striped with dull red, russet dots; fine grain, tender, rich and excellent.

\*Tallman Sweet-Medium, yellow, rich. Good keeper.

Red Wing-A hardy Minnesota apple of great promise. By all means try it.

Windsor—Large, oblate, slightly conical, light greenish yellow covered with marbled dull red and russet; fine grained, spicy, sub-acid. Very good.

We can also supply Yellow Bellflower, Pound Sweet, Bailey Sweet and Maiden Blush;

we can also supply reliow Bellflower, Pound Sweet, Balley Sweet and Maiden Blush; 3 to 4 ft. trees at 45c each. \$4.25 for 10.

## CRAB APPLES

	Each	10	100
4 to 6 feet	\$ .50	\$4.50	\$42.00
3 to 4 feet	40	3.50	32.00

Perfectly hardy, succeed everywhere, early and annual bearers.

Hyslop-Large, deep crimson; one of the most beautiful; very popular.

\*Florence—One of the best crabs to plant. It is early and red, good size to plant. It is early and bears well. Fruit is large and of good quality. Originated in Minnesota. Tree is very hardy.

\*Sweet Russet-Large, roundish oblong, greenish yellow, mild, sweet.

Transcendent-Immensely productive, bright red, one of the most popular.

Whitney-One of the largest, glossy green, splashed carmine, firm, juicy, pleasant great bearer. Fine to eat out of the hand.

## **PEARS**

Standard— 4 to 6 feet	_	Each .\$.65	$^{10}_{\$6.25}$	<b>100</b> \$60.00
Dwarf— 3 to 4 feet		.60	5.50	52.00

Dwarfs, Howell, Seckel, Flemish Beauty, Anjou, Bartlett.

Bartlett — Large, buttery, juicy, high flavored, great bearer; very popular.

Clapp's Favorite—Very large, yellow and red, with russet specks, melting rich.

Howell—Large, yellow, with red cheek, rich, sweet, melting early bearer, productive.

Flemish Beauty—Large, juicy, rich; one of the hardiest and most popular.

Clairgeau—Its large size, early bearing, productiveness and great beauty make this one of the most valuable market sorts.

Seckel—Small, skin rich, yellowish brown, when fully ripe, with deep brownish red cheek; flesh very fine grained, sweet, exceedingly juicy, melting, buttery, one of the richest flavored pears known.

Anjou—Large, buttery, melting, rich vinous. The best late fall and early winter variety.

Sheldon—Medium size; yellow, with a richly shaded cheek; flesh a little coarse, melting, juicy, with a very brisk, vinous, highly perfumed flavor; of first quality. Tree vigorous erect and handsome, hardy and productive.

Keiffer—Its large size, handsome appearance and remarkable keeping and shipping qualities make it exceedingly profitable for market.

## RUSSIAN APRICOTS

50c each-\$4.75 per 10

These are quite distinct from the European varieties, hardier and will produce fruit when other apricots fail. Recommended where peaches cannot be grown. They are early bearers and productive.

Superb—A hardy seedling from Kansas. The best flavored, most productive, hardy apricot yet produced. Golden yellow.

## **CHERRIES**

100 \$6.25 3 to 4 feet ...... ...\$ .65 \$60.00

Montmorency

\*Early Rich mond - An early variety of extreme hardiness bearing large annual crop of medium sized fruit, light to dark red, very juicy.
English Morello

-Large, dark red, juicy, tree some-what dwarf in growth.

\* Napoleon-Large, pale yellow or red; firm, juicy, sweet and productive.

Dikeman-From Northern Michigan. The original tree has attained large size and is still producing immense crops; fruit large, black, firm, of excellent quality; fine keeper and shipper; the latest of all sweet cherries.

Montmorency-Large, bright crimson, very juicy, strong, upright growers and one of the best late varieties.

Early Kent-Very hardy; tree a good grower and very productive.

## **PLUMS**

tive, the leading market variety.

Moore's Arctic—Small, purplish-black, juicy, sweet; immense bearer; one of the hardiest in bud and bloom.

Reine Claude-(Bavey's Green Gage)-

Very large, greenish, fine flavor.

De Soto—The fruit is of medium size, dappled red and yellow, ripening in September, and is firm, sweet and juicy. The tree is hardy and productive. Good for general planting and market purposes.

Forest Garden—The fruit is very large and round, purplish red, mottled with yellow, juicy, sweet and rich. The tree is clean, healthy, vigorous and productive.

clean, healthy, vigorous and productive.

Hammer—Of large size, firm, juicy and delicious. Tree is a good strong grower.

Hawkeye—The tree is hardy, thrifty and an annual bearer. The fruit is large, light in color, mottled with red, of superior quality, very firm and an excellent shipper. It ripens in September.

Red June—Recommended as by all odds the best Japanese Plum, ripening before Abundance. One of the vigorous, upright growers; productive; fair size, vermilion red, pleasant quality.

### PROF. HANSEN'S NEW PLUMS

We have fruited these wonderful plums on our grounds and can truthfully say they are the most remarkable creations in fruits of the present day.

Hanska, with its beautiful appearance,

high color and rich fragrance and flavor, is a real acquisition.

Opata is a cross between the Sand Cherry and the Gold Plum. Bears the second year; fine quality and as hardy as a willow.

Sapa much like a large Ox-heart cherry, dark flesh and juice. Fine quality. Five-foot trees at three years bear 1 to  $1\frac{1}{2}$  bushels, and keep it up. Every home in the country should possess from one to a dozen of these wonderful trees.

Waneta—Best of Hansen's Hybrids; good thrifty grower; very hardy. Fruit very large and of finest quality.

## **PEACHES**

	·		
	Each	10	100
4 to 5 feet		\$3.75	\$35.00

Crawford's Early—A magnificent, large yellow peach of good quality. Early in September.

Crawford's Late—A superb, large, yellow peach. One of the best. Last of September. Crosby—One of the hardiest, abundant bearer; medium size, bright yellow, fine quality. Middle of September.

Champion—A large, handsome early variety, creamy white with red cheek, sweet, rich and juicy. Hardy and productive. August.

Elberta—Large, yellow with red cheek; flesh yellow, firm, juicy. Exceedingly prolific, sure bearer and hardy. The leading market variety. Follows Early Crawford.

## SUCCESS JUNEBERRIES

Success June Berries—One of our most desirable fruits for the garden. Very hardy and productive. Much like blue berries. 25c each, \$2.00 per 10.

## **GOOSEBERRIES**

Houghton or Downing\$	.25	\$2.25	\$20.00
Chautauqua or .	0.0	0.55	27.00
Corrio	30	-2.75	-25.00

Downing—Large size, oval, greenish white; plant very vigorous and hardy, with stiff, strong shoots; foliage heavy, covering the fruit from the sun, and resisting mildew; bears most abundantly and is profitable for market and home use.

Perfection Currants

Carrie Gooseberries

Houghton's Seedling—A vigorous American sort; very productive; free from mildew. Fruit medium, roundish, smooth, of a pale red color; tender, sweet and of delicious flavor.

Chautauqua—One of the most prolific large gooseberries grown. Bush strong and vigorous, berries light yellow, free from spines and hair; veined and transparent; sweet and delicious.

Carrie—Is extremely vigorous and healthy in foliage, and promises good. Of fine quality and the most productive of all. The berries hang in clusters like grapes on the branches.

### **CURRANTS**

Each 10 100 Prices \$ .25 \$2.25 \$20.00

Fay's Prolific—The leading market variety. Extra large stems and berries, uniform in size, easily picked, exceedingly productive.

White Grape — Very large, yellowish white; sweet or very mild acid; excellent quality and valuable for the table. Productive.

Black Victoria—A strong, vigorous grower, making a neat bush of unfailing productiveness; fruit of fine flavor and enormous size; the largest black in cultivation.

Perfection — A grand current, large berry of finest quality; two weeks later in ripening than Fay.

## RASPBERRIES

St. Regis Raspberries

Each 10 100 Prices ...... 15 \$ .80 \$6.00

Minnesota No. 4-This variety originated at

the plant breeding farm at Excelsior, Minnesota, where it has proven to be entirely hardy. The canes are strong, clean growers, very healthy, and free of diseases. They are very productive and the fruit is large, good color and very firm.

Kansas—Jet black, firm and delicious, as large or larger than Gregg. The hardiest black cap known, successfully withstanding the winters.

Columbian—A vigorous grower; canes often ten to fifteen feet in length and over an inch in diameter. Never suckers from the roots. Very hardy, enduring 28 degrees below zero. Fruit very large, dark red, bordering on purple; adheres firmly; rich, sprightly flavor.

Cuthbert—(Queen of the Market)—Large conical, deep, rich crimson; firm, of excellent quality. A vigorous grower, entirely hardy, and immensely productive.

Golden Queen—Rich golden yellow. The flavor is of the highest quality, pronounced by some superior to Brinskle's Orange. In size equal to Cuthbert; immensely productive; a very strong grower and hardy enough even for extreme northern latitudes.

St. Regis Everbearing Raspberry—This wonderful raspberry marks a new era with this popular fruit. We have a large planting of St. Regis and during September and October we picked crates of the most delicious berries, in fact there were berries on the canes all summer long.

Hyde—A strong, sturdy grower, throwing out many laterals and fruiting to the tips and from every lateral. An immense cropper, while the fruit is extraordinarily large and handsome, firm, and of the highest quality. A deeper, richer, red when fully ripe.

## BLACKBERRIES

Snyder—Extremely hardy; enormously productive; medium size; no hard sour core.

Eldorado—On account of the peculiar thick and elastic composition of the leaf of the Eldorado it stands in a class by itself. Rust or scalding sun do not affect them. If you have been disappointed in growing Blackberries, take our advice and try the Eldorado. We have the true blue stock.

Ancient Briton-One of the best.

Early Harvest-Very popular.

The hardiest, most vigorous and productive of all blackberries.

## **STRAWBERRIES**

PRESIDENT HARDING

This strawberry a seedling of our own growing is the most vigorous grower and the largest berry of any variety we fruit. Per 10 Per 100 Per 1000 Nice Plants ..... ......\$ .40

Warfield, Minnesota No. 4, Burrill, Dunlap, Splendid, Gandy, per 10, 25c; per 100, \$1.00; per 1000, \$7.00.

NOTICE—To parties wishing plants sent by mail add 10 cents per hundred to cover cost of postage and packing. We can ship any distance by mail and plants will arrive in fine condition.

Warfield-Imp. Medium size, roundish conical, dark red, very firm and a good shipper. A leading market variety.

Gandy-A very late berry; berries are regular, even size and firm. Command a big price when other varieties are running out.

Splendid—Large size, good quality, and very productive. Medium to late.

Senator Dunlap-Medium to large, conical, dark red, firm and of first quality, midseason. A vigorous grower and usually makes too many plants for best results, unless growth is restricted. It is as productive as Warfield, berries are better colored and a third larger.

Dr. Burrill-An improved Dunlap; very fine.

Minnesota No. 3—The hardiest plant in our nursery; berries large; dark red.

### EVERBEARING STRAWBERRIES

Duluth-Best of all in our estimation.

Progressive—All that the name implies; everybody should grow them. Americus—Very popular and a good one; berries all summer; finest flavor.

Superb-The best plant maker with lots of big berries; best market sort.

Prices, per 10, 40c; per 100, \$2.75; per 1000, \$25.00.

### THREE GOOD GRAPES

## GRAPES

Per 10 Per 100 Per 1000

\$2.25 \$20.00

Campbell's Early-The berries are large, often an inch or more in diameter, glossy black with a purple bloom, sweet and juicy, with few seeds. They ripen from the fifteenth to the last of August. As a keeper and shipper this variety is unequalled by any other American grape, while as a dessert grape it is delicious.

Concord—The well known standard variety, succeeds wherever grapes will grow.

Brighton-Bunch large, well formed; berries above medium to large; round; excellent flavor and quality; one of the earliest in ripening.

Delaware—Bunches small, compact, shouldered; berries rather small, round, skin thin, light red; flesh very juicy; sweet, spicy and delicious.

Lindley—(Roger No. 9)—Berries medium to large, red; flesh tender, sweet and aromatic; ripens early.

Diamond-The leading early white grape, ripening before Moore's Early. White, with rich yellow tinge; juicy, few seeds, almost free from pulp; excellent quality; above medium size, adheres firmly to the stem. Fine variety for both market and home garden.

Moore's Early—Bunch large, berry large, round, with heavy bloom, vine exceedingly hardy. Its earliness make it desirable for an early market. Its hardiness particularly adapts it to Canada and the northern portions of the United States.

Pocklington—Bunch and berries large, when fully ripe a light golden yellow; juicy, tender, sweet and with little pulp. Vine thoroughly hardy, strong grower, free from mildew; productive. One of the most satisfactory white varieties.

Worden—A splendid grape of Concord type, larger, better quality and earlier. Vine vigorous; hardy and productive.

Niagara—Occupies the same position among white varieties as Concord among the black; the leading profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe. Skin thin but tough; quality much like Concord.

100 Each 10 \$30.00 \$3.50

Alpha—A fine black grape found growing wild in Minnesota; has stood 25 to 30 degrees below zero and bore a good crop.

Beta—A very hardy hybrid wild grape; fine for jellies and grape juice.

Hungarian—Much like Concord but earlier and a great deal hardier; a great acquisition.

Varieties—Virginia Creeper, Trumpet Creeper, Scarlet Honeysuckle, Purple Wistaria. Each, 25c; per 10, \$2.00; per 100, \$20.00.

### LARGE FLOWERING CLEMATIS

Price for strong two year roots, 50 cents each; \$4.50 per ten; \$40.00 per hundred.

Duchess of Edinburgh—This is without doubt the best of the double whites. Very free flowering, very fragrant.

Jackmanii—From four to six inches in diameter, intense violet purple, with a rich, velvety appearance and distinctly veined. The best.

Bangholm Belle-Flowers are large, six to nine inches diameter. Pure white. One of the best.

Conover's Colossal

Ville de Lyon—This beautiful Clematis is much sought after, but is very scarce. The color is a bright rosy red, entirely distinct from any other sort. A grand variety.

Gypsy Queen—A unique shade in Clematis. A pretty lavender-pink, fine contrast to the strong colored sorts. Rapid in growth and slender, graceful habit.

**Sieboldii**—Lovely shade of lavender. Very beautiful; distinct.

Paniculata—Small, white flowers late in the summer.

## HARDY ROSES

Good strong field-grown bushes that will bloom nicely the first summer.

J. B. Clark—This splendid new Rose is placed by some cataloguers among the Hybrid Teas; but it is perfectly hardy, unusually large and expresses in every way the characteristics of the Remontant type. It is robust in growth, with clean, heavy foliage. Flowers are large and superbly constructed; deep scarlet overlaid with crimson.

Anne de Diesbach—Beautiful shade of carmine; very large and fragrant; quite hardy and a good forcing rose.

Baron de Bonstetten — Rich, velvety, maroon, large and full; a splendid sort.

Frau Karl Druschki—Very large, perfect form and snow white; a vigorous grower and a free bloomer.

General Jacqueminot—One of the most popular of the red roses; brilliant crimson, large and very effective; very fragrant and one of the hardiest.

Magna Charta—Extra large and full, bright rosy pink; a profuse bloomer and very hardy.

Madam Gabriel Luizet—Rich, soft pink with deep, flesh-colored center; large, full and sweet.

Geo. Arends—(Pink Druschki.)—Without a doubt has few equals; lovely pink.

**Hugh Dickson** — Magnificent crimson, shaded with scarlet. Flowers very large, of perfect shape and fully double. Plant strong, vigorous, productive.

Baltimore Bell

Conrad Ferdinand Meyer-Extra large, full deep pink; a free bloomer; very handsome, and extremely hardy.

Paul Neyron—Said to be the largest rose in cultivation; bright, clear pink; very fragrant, hardy and a strong grower.

Prince Camille de Rohan-Very dark, velvety crimson, almost black, large and full; a beautiful sort.

Moss Roses—Blanche Moreau, Crimson Globe, Princess Adelaide, Blanche Roberts, Rosa Rugosa, red and white.

Climbing Reses—Crimson Rambler, Empress of China, Prairie Queen, Yellow Rambler, Baltimore Bell, Seven Sisters, Russell Cottage, Dorothy Perkins, Philadelphia Rambler, Flower of Fairfield, Excelsa and Austrian Yellow.

Baby Rambler-Red, White, Pink, and Yellow Nice little bushes that will bloom all summer.

## ORNAMENTAL SHRUBS

Spirea Van Houttii

Flowering Almonds-Pretty double pink flowers in early spring.

Polish Privet-Very hardy, makes a fine hedge.

Hydrangea Arborescens or Hill of Snow-Beautiful hardy native shrub.

Barberry Thunbergii-Dwarf grower, bright red berries.

Deutzia Gracilis-Pure white, fragrant flower.

Dogwood-Red bark, pretty in winter.

Flowering Currants—Sweet scented blossoms in early spring.

Golden Elder-Yellow foliage, very attractive.

Hardy Hydrangea-Blooms late in fall.

Lilac-Common-Fragrant single lilac colored flowers.

Lilac-White-Pure waxy white.

Lilac-Charles the Xth-Enormous, purplish red blooms.

Lilac-Pres. Loubert-A fine double sort, color sky blue.

Lilac-Lamark-Double, color porcelain blue.

Spirea Van Houttii-Bridal Wreath-white flowers in May.

Japan Quince-Brilliant scarlet, flowers in early spring.

Snowball-Large clusters of blossoms in June.

Snowberry-Pink flowers with red and white berries in the fall.

Wiegelia-Rosea-Pink flowers in June.

Wiegelia-Florabunda-Flowers dark crimson.

Syringa—(Mock Orange)—Flowers large, sweet and pure white.

Honeysuckle Tartarian-Pink blossoms, sweet scented.

### RARE TREES AND SHRUBS

Purple Leaf Maple—A beautiful lawn tree 6 to 8 feet, \$2.00 each.

Double Flowering Plum—A most beautiful early flowering shrub, 75 cents each.

Spirea Arguta—Blooms first thing in the spring. Beautiful, 40 cents each.

Double White Lilac—Most charming and sweet, 40 cents.

Golden Syringa—Beautiful yellow leaves, 40 cents.

Betchels Flowering Crab—3 to 4 feet, 75 cents.

Red Bud—3 to 4 feet, 75 cents.

Strawberry Tree—3 to 4 feet, 50 cents.

Tamarix—1 to 2 feet, 25 cents.

## **PAEONIES**

Festiva Maxima Peonies

We have a very fine collection of this noble flower, and invite your especial attention to our very low prices on good, strong roots and the following named sorts at 40c each; \$3.50 per 10; \$30.00 per 100.

Modesta-Purple, sweet scented, fine cut flower.

Bromwell-Soft, silvery pink, very fragrant. Great bloomer.

American Beauty-Just like the American Beauty Rose, with delightful fragrance.

Floral Treasure—The most beautiful pink imaginable, great bloomer.

Delachii-Glorious, purplish crimson. One of the best.

Grandiflora Rubra-Very late and large, blood red.

Golden Harvest-Fine yellow, bluish guard petals.

Rubra Triumphans-Rich, glowing crimson.

La Esperance-Early, delicate pink, sweet scented.

Victoria-White creamy center; fine as a cut flower.

Crown of Gold—A very rare and new variety. Pearly white with golden center, splashed with red.

Superba Purpurea—Dark purple, very double, one of the finest.

Festiva Maxima—The best white, charming, waxy, center splashed red.

## **GLADIOLI**

The Gladiolus is everybody's flower. They have no insect pests, grow in any soil, sure to bloom and have no equal as a cut flower. Once you get the bulbs you always have them, provided you keep them from the frost during the winter; the bulbs increasing in number every season. Our collection is unexcelled.

Extra choice Named varieties, 15c each; per 10 \$1.25; per 100, \$10.00.

America—A splendid new Gladiolus. The color is a most beautiful soft pink.

Baron Hulot—Rich deep indigo blue. No collection is complete without this rare sort.

Canary Bird—A lemon yellow chocolate blotch of good size and substance.

Columbia—Flower of immense size, in color, salmon-red, spotted and slightly flaked chocolate to white in throat.

Mrs. Frances King—A new variety which excited great comment and admiration both for size of flower and beauty. The color of the flower is a light scarlet, of a very pleasing shade, which attracts attention at once.

Princeps—A grand, large flower, color brilliant scarlet-crimson, blotched white on the lower petals.

Augusta-Pure white with blue anthers.

Glory of Holland-White flaked rose, fine.

Gertrude—Bright, lively pink, flecked and striped with shades of the same color.

Klondyke—Strong, vigorous plant, blooming early; flowers round, well opened, of a clear primrose-yellow, with blotch of vivid crimson on three lower petals.

Harvard—The largest and richest colored Gladiolus yet introduced. The color is rich, velvety maroon, slightly flushed dark scarlet.

Victory — Color, delicate sulphur-yellow. Lower petals shaded a deeper yellow.

Golden West-One of the best exhibition varieties.

Velvet King-A fine early red. Hard to beat.

Princepine—Brilliant crimson with white throat. Great bloomer.

Europa-New and rare. The finest white.

Niagara-The one greatest Gladiolus. Creamy pink, beautifully exquisite.

Lily Lehman-A most beautiful shell pink, absolutely entrancing.

Halley-The earliest of all, flesh pink. Bewitching.

Panama-Our finest dark pink. Glorious.

Peace—Beautiful white, with lilac feather. Tall spike, nice flower, very late, grand sort.

War-Deep blood red shaded with crimson black.

Mrs. Pendleton-Salmon pink blotched red. Beautiful by lamp light.

Empress of India-Rich dark maroon, almost black. A rare color.

Black Beauty-Very deep red, stained black, large round blossoms.

Mrs. W. J. Moyle—A tall, vigorous grower with fine spikes of large open flowers of a most beautiful rose color with a ruby throat.

Ruth Moyle—The most glistening pearly white tinted with shell pink with a garnet splash at the base of each petal.

Gladiolus

# Dasheen, the Coming New Vegetable

300 to 900 Bushels Per Acre. The Potato's Only Rival

We call the Dasheen a new vegetable because it is new in this country, but in fact it has been grown for years in China, and is known in the various parts of Europe and Asia, and in some localities in South America.

The Dasheen is grown principally as a root crop, the tubers being used the same as Irish Potatoes. The tubers sometimes reach a weight of more than 6 pounds each. One hill will produce on good, rich soil 6 or 8 pounds or more of tubers, and in rare instances 20 to 26 pounds of Dasheens have been taken from a single hill. Crops of 600 to 900 bushels per acre have been produced. From the interest that has already developed among Southern farmers who have become even slightly acquainted with the Dasheen, it surely looks as though this crop is destined to be of great importance to that section of the country. It can be grown as a summer crop in a region where the potate must be grown almost entirely as a spring crop, for it ripens its tubers in the early fall and furnishes them for the table at a season when Northern grown potatoes have to be shipped in.

fall and furnishes them for the table at a season when Northern grown potatoes have to be shipped in.

The U. S. Department of Agriculture report 1,400 bushels from less than 5 acres in Florida, and on their different experimental grounds have secured yields of 450 bushels to the acre.

Mr. A. I. Root, editor of Gieanings in Bee Culture, has this to say regarding the Dasheen: "Although the Dasheen is still mostly confined to the South, yet I might say that we are now growing our third crop here in Northern Ohio, and I feel more and more satisfied that it can be grown profitably all over our Northern states; and will ultimately prove to be one of our most nourishing and toothsome vegetables."

The "Country Gentleman" published the following regarding it: "Not only does the Dasheen promise well as a market crop once the public generally has

Planting should be done as early in the spring as conditions of soil and climate will permit. For field culture the tubers are planted singly and entire, not more than 2 to 3 inches deep in hills about 3 feet apart, the distance between rows being 4 feet. This will permit horse cultivation. In cultivating during the summer the soil should be graducily drawn to the plants and the ground kept free from weeds, but require little cultivation after large enough to shade the ground.

In growing Dasheens there seems to be no disease or insect enemy to contend with, as there is in growing potatoes. No dreaded potato bugs to be poisoned; no rot, scabs, blight mildew or other troubles.

The leaves are large and very ornamental, resembling closely the Caladium Esculentum, or Elephant's Ezr. Every town and city garden should plant a few of these interesting plants to see what the people in other parts of the world raise for food.

The Dasheen is sure to be a "gold mine" for growers in all parts of the country where the season is not too short. While we would not recommend it as a big money maker for the North, we surely consider it worthy of a place in every garden. If you haven't room to give them a trial in your garden, you can at least plant a few for ornamental purposes and at the same time grow enough of the tubers to find out what they are like. You will find them one of the finest vegetables and most showy ornamental foliage plants. This year is the time to get started with a few, so as to raise your own seed tubers for next year's planting. As our stock of tubers is limited, we would recommend that you send your order early.

Don't buy field run tubers, as they are more expecially selected for seed purposes.

Don't buy field run tubers, as they are more expensive even if bought at a lower price by the bushel. Our hand graded tubers are especially selected for seed purposes.

Choice seed tubers, 3 for 40c; 6 for 75c; 12 for \$1.25; 25 for \$2.00, delivered to you prepaid. Our pamphlet giving cultural directions and recipes for preparing and cooking the Dasheen, free with each order.

A Dasheen Plant

## SEEDS FOR POULTRYMEN

Cut Your Feed Bill in Half. Get More Eggs. A small space in your garden will grow a winter's supply for a large flock of hens.

### CHISHA, or CHICKEN LETTUCE

You have doubtless read in the poultry journals that lettuce is an excellent feed for chickens. In this Chisha Lettuce you will find a feed that yields as much or more than other green feeds. It is economical to grow this strain, for when cut it resumes its growth rapidly and can be cut again and again; or the leaves can be pulled off each stem like the Jersey Kale. The yield is extremely heavy. Chisha, or Chicken Lettuce, does not make a head, but sends up a stont stalk, 3 to 4 feet high and just loaded with leaves. Pkt., 10c; 3 pkts., 25c; oz., 50c; 1/4 lh., \$1.50; postpaid,

### POULTRY BEET

Sugar Beets and Mangel Wurzels make excellent feed for poultry. and only a little garden space will be required for growing enough to last all winter, as they are very productive. Stored in an ordinary cellar or any cool place, they will keep until spring. We can supply you with seed of either Sugar Beet or Mangel Wurzel. Pkt., 5e; uz., 10e; 34 lb., 30e; lb., 90c; postpaid

### SPINACH BEET, or SWISS CHARD

The Spinach Beet is a most valuable poultry feed. Every poultry man who has to keep his hens shut up should grow a patch of this green feed. Large tender leaves from early summer until snow files. I'kt., 5e; az., 10e; 1/4 lb., 50c; lb., \$1.06; postpaid.

### GIANT POULTRY RADISH

The Sakurijima Radlsh is grown extensively in Japan as a poultry feed. It is the largest variety of radish in cultivation, often attaining a weight of 15 lbs., and some grow to more than 30 lbs. Nearly round, a great eurlosity, and a radish of extraordinary qual-Flesh solid, firm and brittle, of most excellent flavor, and unsurpassed for table use. These mammoth radishes can be kept all winter, and are fine for feeding cattle and poultry.

### WHITE BELGIAN CARROT

Carrots are very rich in food value and make a most healthy feed for poultry. Many of the most successful poultrymen feed carrots once or twice a week during the winter. Mammoth White Belgian is the best and most productive variety. I'kt., 50; az., 10c; 1/4 Ih., 30c; lb., 95c; postpaid.

### MAMMOTH RUSSIAN SUNFLOWER

Sundower seed is excellent poultry feed during the moulting season. Mammoth Russian is the best and most productive variety. Pkt., 10c; 1/4 lh., 15e; lh., 10e; postpaid.

### NEST EGG GOURDS

Resemble hens eggs in color, shape and size. Do not crack, last for years, and make the best nest eggs. A rapid grower and extremely ornamental elimber. Pkt., 10e; 3 pkts., 20e; postpaid.

## KUDZU, the Great Japanese Poultry and Rabbit Clover

the winter. It cures the quickest of any known hay, the leaves do not drop off, and when maistened, the hay becomes almost like fresh foliage again. All kinds of poultry are very fond of it, and no green feed will do more to increase egg production. Rabbits not only thrive on it, but are also very fond of the large fieshy roots.

As a hay for all kinds of stock, it is

BETTER THAN ALFALFA.

BETTER, because it succeeds on land too BETTER, because it does not have to be

BETTER, because it outylelds alfalfa on

BETTER, because it enriches poor soil more rapidly and more permanently than it can otherwise be improved.

BETTER, because it will transform nonproductive barren hillsides into a main resource of the farm.

BETTER, because it doesn't have to be at a certain time to save it. BETTER, because a shower of rain doesn't

BETTER, because it makes a good permanent pasture. BETTER, because it is not injurious to horses and is perfectly safe for all stock, when fed either green or dry. (Does not cause sickness of animals even when overfed.)

BETTER, because stock like it better,

BETTER, because, when fed to cows, it will produce more milk and richer milk than any other one feed.

BETTER, because it contains more protein than alfaifa or wheat

Kudzu is a wonderful perenniai legume. It is perfectly hardy all over the United States and endures the winters as far north as Nova Scotia.

Kudzu gives promise of being one of the leading sources of wealth to farmers and stockgrowers. It springs up from the roots when the first warm days come in the spring and grows vigorously until a killing freeze comes in the fall. Two cuttings can be made each year in the North and four in the South. Instances are known where four cuttings of hay averaging 2½ tons per cutting and making a total yield of ten tons per acre in a single season, have

Kudzu contains more protein than wheat hran; as high as 19.82 per eent, and averaging 17.43 per cent, yet it is entirely free from the tendency to cause loose bowels, kidney disorders and bioat in horses and other live stock, that interferes so seriously with the use of alfalfa.

Kndzu thrives on any soil, provided the land is well drained, and does well on land that is too poor for any other hay crop. Poor, worn out land planted to Kudzu soon becomes like the rich soil that has been recently cleared from the virgin forest. The

### FIELD OF KUDZU CLOVER

soil becomes richer every year, and the deep roots live to a great age and become stronger and more vigorous as the years pass by. The roots penetrate so deeply as to make it proof against dry

Kuilzu should be given cuitivation the first season. Some other erop may be planted between each row of Kudzu the first season If desired. After this it needs no further cultivation, as the vines will run all over the ground the next season and take root at the joints, growing so rapidly as to choke out all other plants (even such pests as Johnson and Bermuda grasses), yet it is an easy matter to get rld of Kudzu if desired, for it has a peculiar habit of neither blooming or bearing seed under field culture, and the plants only sprout from the crowns, and can be as easily killed as alfaifa. For this reason there is no danger of it ever becoming a pest.

Growers are now propagating it almost entirely by transplanting young plants from old Kudzu fields, owing to the fact that the seed is very scarce and does not germinate readily in the open ground. They prepare the ground the same as for a crop of corn, and then check off into rows 10 feet apart each way, setting a plant at each check. It takes only 450 plants to set an acre, so you see it is not as big a joh as one might imagine, and the time spent is a very small consideration when you figure that once you get it planted it Is there to stay as long as you want it,

We have managed to secure a limited supply of this seed. Sold in sealed packages only, and guaranteed genuine. By planting a few dollars' worth you would soon be able to grow enough plants to set an acre. Package, 25c; 5 packages, \$1.00; 12 pkgs., \$2.00; 20 pkgs., \$3.00; 35 pkgs., \$5.00; postpail. Not more than 35 packages to a person, as we haven't enough to go around.

# Bargain Price List All Seeds Delivered Prepaid

## Yard Long Bean

interesting curlosity. The vines are rampant growers and produce an enormous crop of long, slender, round p o d s, which are of exeellent quality for snap beans. The round pods average from 2 to 4 feet ln length, having the thickness of a lead penell.

Produce late in the summer, very produetive, tender and of fine flavor. Pkt., 10c; 3 pkts., 25c.

### BEANS

BURPEE'S STRINGLESS GREEN POD, the earliest of all; CHALLENGE DWARF BLACK WAX, earliest wax podded bean; IMPROVED GOLDEN WAX, excellent and productive: KENTUCKY WONDER, best pole bean; HENDERSON'S BUSH LIMA, earliest and most productive lima. LIBERTY PRUNE

## Liberty Prune

A very hardy and prolific prune; the finest of all for drying. Most delicious flavor and a great bearer.

Nice Little Trees

80 cents Each

10 for \$7.50

## Hardy Black Cap Raspberry

The Raspberry is one of our best fruits. Alaska has merits possessed by no other. Give it "half a chance" and it will surprise you. It won't sprout up all over the country. The canes are large and strong. The fruit is borne in great clusters. Never freezes out. Stands drouth well. Berries largest size. Its chief merits are as follows:

1st-Fruit largest size.

2nd—Possesses extreme hardiness.

3rd—Bears second year.

4th-Most Delicious flavor.

5th—Remarkably prolific.

Prices on Alaska Raspberry
Nice Plants, 15c each; \$1.25 per 10;
\$10.00 per 100.
